'Nam 1965-1975 (1991) 'Nam 1965-1975 is a strategy game set during the Vietnam war. The player takes the role of both the President of the United States and the commander-in-chief, and the goal of the game is to prevent the South of Vietnam to fall in the hands of the Vietcong, managing its military resources and preventing the public opinion to reject the war.

History. In 2004, Solr was created by Yonik Seeley at CNET Networks as an in-house project to add search capability for the company website.. In January 2006, CNET Networks decided to openly publish the source code by donating it to the Apache Software Foundation. Like any new Apache project, it entered an incubation period which helped solve organizational, legal, and financial issues.
