Big Life Journal for Kids The first ten lies they tell you in high school. "Speak up for yourself--we want to know what you have to say." From the first moment of her freshman year at Merryweather High, Melinda knows this is a big fat lie, part of the nonsense of high school. She is friendless, outcast, because she busted an end-of-summer party by calling the cops, so now nobody will talk to her, let alone listen to her. As time passes, she becomes increasingly isolated and practically stops talking altogether. Only her art class offers any solace, and it is through her work on an art project that she is finally able to face what really happened at that terrible party: she was raped by an upperclassman, a guy who still attends Merryweather and is still a threat to her. Her healing process has just begun when she has another violent encounter with him. But this time Melinda fights back, refuses to be silent, and thereby achieves a measure of vindication. In Laurie Halse Anderson's powerful novel, an utterly believable heroine with a bitterly ironic voice delivers a blow to the hypocritical world of high school. She speaks for many a disenfranchised teenager while demonstrating the importance of speaking up for oneself. *Speak* was a 1999 National Book Award Finalist for Young People's Literature.

Culturally Responsive Teaching and The Brain This beloved book by E. B. Rhyming Dust Bunnies About the Authors is about the littlest authors - those in kindergarten through second grade. Based on a profound understanding of the ways in which young children learn, it shows teachers how to launch a writing workshop by inviting children to do what they do naturally - make stuff. So why not write books? Gifted educator and author of the best-selling What You Know by Heart (Heinemann, 2002), Katie Wood Ray has seen young authors do just that. And she wants your students to be able to do the same. Beautifully describing young children in the act of learning, she demonstrates what it takes to nourish writing right from the start: a supportive environment that enables even the youngest students to write respect and sensitivity to the way children really learn inviting instruction that both encourages and elevates young writers rich language that stimulates writing classroom talk and children's literature that energize young writers developmental considerations that shape the structure of the workshop, making it natural, joyful, and absolutely appropriate. What's more, Ray explains step by step how to set up and maintain a primary writing workshop, detailing eleven units of study that cover idea generation, text structures, different genres, and illustrations that work with text. She also draws on data, projects, and the language of teaching used in the classroom of first-grade teacher Lisa Cleaveland. Ray allows readers to "listen in" to Lisa as she helps her young students learn from professional writers, work with intention, and think about their own process. Chockfull of examples of little books by young children, About the Authors is proof positive that a primary writing

Creative Writing Ideas In the tradition of Persepolis, In the Shadow of No Towers, and Our Cancer Year, an illustrated memoir of remarkable depth, power, and beauty Danny Gregory and his wife, Patti, hadn't been married long. Their baby, Jack, was ten months old; life was pretty swell. And then Patti fell under a subway train and was paralyzed from the waist down. In a world where nothing seemed to have much meaning, Danny decided to teach himself to draw, and what he learned stunned him. Suddenly things had color again, and value. The result is Everyday Matters, his journal of discovery, recovery, and daily life in New York City. It is as funny, insightful, and surprising as life itself.

Daily Language Review The battle between boys and bots is on in this funny, fast-paced novel. Ken is an EngiNerd: one of a super-smart group of friends—all nerds—who

have been close since kindergarten. They may be brainiacs, but they're just like everyone else: they fight with one another, watch too much TV, eat Chinese food, and hate walking their dogs. Well, maybe not just like everyone because Ken's best friend Dan has been building robots. He then secretly sent one to each of the EngiNerds, never letting them know he's the mastermind. At first Ken is awed and delighted: what kid hasn't dreamed of having a robot all their own? Someone who can be their friend, clean their room, walk the dog, answer homework questions...how amazing is that? But be careful what you wish for: Dan's robot, Greeeg, may look innocent, but his ravenous consumption of food—comestibles—turns him into a butt-blasting bot. And once the other robots 'come alive' it's up to the motley crew of EngiNerds to not only save the day, but save the planet!

4th Of July Journal INTERNATIONAL BESTSELLER "Fascinating A powerful, exhortatory call to arms."-New York Times Book Review "A David-and-Goliath story for the digital age Thrilling."-Foreign Policy The page-turning inside story of the global team wielding the internet to fight for facts and combat autocracy-revealing the extraordinary ability of ordinary people to hold the powerful to account. In 2018, Russian exile Sergei Skripal and his daughter were nearly killed in an audacious poisoning attempt in Salisbury, England. Soon, the identity of one of the suspects was revealed: he was a Russian spy. This huge investigative coup wasn't pulled off by an intelligence agency or a traditional news outlet. Instead, the scoop came from Bellingcat, the open-source investigative team that is redefining the way we think about news, politics, and the digital future. We Are Bellingcat tells the inspiring story of how a college dropout pioneered a new category of reporting and galvanized citizen journalists-working together from their computer screens around the globe-to crack major cases, at a time when fact-based journalism is under assault from authoritarian forces. Founder Eliot Higgins introduces readers to the tools Bellingcat investigators use, tools available to anyone, from software that helps you pinpoint the location of an image, to an app that can nail down the time that photo was taken. This book digs deep into some of Bellingcat's most important investigations-the downing of flight MH17 over Ukraine, Assad's use of chemical
