Catalogo collettivo della libreria italiana

Catalogo collettivo della libreria italiana
Written by a specialist in interpreting science for lay readers, this lively book recounts the human story behind mathematics, including the insights of such thinkers as Euclid and Hippocrates. 1955 edition.

Physics, the Human Adventure
Paths to Wealth through Common Stocks contains one original concept after another, each designed to greatly improve the results of those who self-manage their investments -- while helping those who rely on professional investment advice select the right advisor for their needs. Originally written by investment legend Philip A. Fisher in 1960, this timeless classic is now reintroduced by his well-known and respected son, successful money manager Ken Fisher, in a new Foreword. Filled with in-depth insights and expert advice, *Paths to Wealth through Common Stocks* expands upon the innovative ideas found in Fisher's highly regarded *Common Stocks and Uncommon Profits* -- summarizing how worthwhile profits have been and will continue to be made through common stock ownership, and revealing why his method can increase profits while reducing risk. Many of the ideas found here may depart from conventional investment wisdom, but the impressive results produced by these concepts -- which are still relevant in today's market environment -- will quickly remind you why Philip Fisher is considered one of the greatest investment minds of our time.

Real World Image Sharpening with Adobe Photoshop, Camera Raw, and Lightroom

Population Health: Creating a Culture of Wellness

A dictionary of the English and Italian languages: by Joseph Barettil. Improved and augmented with above ten thousand words, omitted in the last edition of altieri. To which is prefixed, an Italian and English grammar
The Origins of Infinitesimal Calculus focuses on the evolution, development, and applications of infinitesimal calculus. The publication first ponders on Greek mathematics, transition to Western Europe, and some center of gravity determinations in the later 16th century. Discussions focus on the growth of kinematics in the West, latitude of forms, influence of Aristotle, axiomatization of Greek mathematics, theory of proportion and means, method of exhaustion, discovery method of Archimedes, and curves, normals, tangents, and curvature. The manuscript then examines infinitesimals and indivisibles in the early 17th century and further advances in France and Italy. Topics include the link between differential and integral processes, concept of tangent, first investigations of the cycloid, and arithmetization of integration methods. The book reviews the infinitesimal methods in England and Low Countries and rectification of arcs. The publication is a vital source of information for historians, mathematicians, and researchers interested in infinitesimal calculus.

A Scientific Autobiography

The Origins of Infinitesimal Calculus

Eyes as Big as Plates

Medioevo latino

Effective Literature Searching for Research Examines the life of the Florentine intellectual, his relationships with contemporaries ranging from Leonardo da Vinci and Michelangelo to Cesare Borgia and Pope Alexander VI, his philosophies about power, and the legacy of "The Prince."

Philosophies of Art and Beauty

Machiavelli Just about every digital image requires sharpening since softness is inevitably introduced during the image digitizing process, and oftentimes with digital photography, images are sharpened badly. This second edition of the definitive book by the late Bruce Fraser teaches readers all they need to know about sharpening, including when to use it, why it's needed, how to use the camera's features, how to recognize an image that needs sharpening, how much to use, what's bad sharpening, and how to fix oversharpening. *Real World Image Sharpening with Adobe Photoshop, Camera Raw, and Lightroom, Second Edition* is written by Fraser's friend and renowned photographer Jeff Schewe. It adds essential coverage of Adobe Photoshop Lightroom and Adobe Camera Raw, since many of the key sharpening functions have migrated from Photoshop to those tools since the first edition of the book was published. The book shows readers how to: recognize the kind of sharpening that each image needs; become acquainted with the full arsenal of sharpening tools built into Photoshop, Lightroom, and Camera Raw; sharpen part of an image selectively; create a complete sharpening workflow that allows sharpening images optimally for different uses; balance the contradictory demands of sharpening and noise reduction; and more.

Rocky Mountain Freedom The present book "Pharmaceutical Chemistry Inorganic, Vol I has been written according to the revised syllabus framed by the Pharmacy council of India as per Education Regulations 1991. In this book, subject matter has been recognised incorporating applicationwise classification (Therapeutic, pharmaceutical etc.) rather than the traditional chemical classification. More emphasis has been further laid by explaining the medical and pharmaceutical terms and to what extent it is justifiable to classify a compound under any of the categories. Inevitably, students will find repetition for some compou.

Already Ready

Not the Life It Seems Diary of a Wimpy Kid meets *The Dangerous Book for Boys*, DANGER IS EVERYWHERE is a brilliantly funny handbook for avoiding danger of all kinds that will have everyone from reluctant readers to bookworms laughing out loud (very safely) from start to finish. DOES IT WARN YOU ABOUT WHAT TO DO IF A SHARK COMES UP OUT OF THE LOO WHILE YOU ARE SITTING ON IT? Yes it does. AND HOW TO FIND OUT IF YOUR GRANNY IS A ROBOT? That too. AND WHAT TO DO IF A VOLCANO ERUPTS UNDERNEATH YOUR HOUSE? After you've made sure it's not a neighbour's barbecue, this book will let you know exactly how to deal with it. 'I dislocated my jaw laughing' Eoin Colfer, author of *Artemis Fowl* Written by Doctor Neel Zone, the world's greatest (and only) Dangerologist, with the help of his neighbours: David O'Doherty (words) is a stand-up comedian, writer and regular guest on television shows such as *QI*, *Have I Got News For You* and *Would I Lie To You?* He has written two theatre shows for children, including one where he fixed their bicycles live on stage. Chris Judge (pictures) is the award winning author/illustrator of *The Lonely Beast* and a number of other picture books for children. His work has appeared in high-profile advertising campaigns, newspapers, magazines, exhibitions and other media in Ireland and the UK. His most recent work includes cover artwork for Roddy Doyle's Brilliant. www.DangerIsEverywhere.co.uk 'A brilliantly silly survival guide' *Sunday Express* 'A Joyful riposte to over-cautious parents . . . well-paced and funny throughout.' *Time Out London* 'A surreal, daft and funny book . . . A bracing satirical sideswipe at today's health-and-safety culture, aimed at kids who'll get the irony and relish the silliness.' *Financial Times* 'Brilliantly funny' *Gransnet* 'A brilliantly mapcak guide' ni4Kids.com 'Laugh-out-loud' TheSchoolRun.com

Breakfast With Socrates This anthology is remarkable not only for the selections themselves, among which the Schelling and the Heidegger essays were translated especially for this volume, but also for the editors' general introduction and the introductory essays for each selection, which make this volume an invaluable aid to the study of the powerful, recurrent ideas concerning art, beauty, critical method, and the nature of representation. Because this collection makes clear the ways in which the philosophy of art relates to and is part of general philosophical positions, it will be an essential sourcebook to students of philosophy, art history, and literary criticism.

The Art of Mackin' A selection by one of America's greatest poets of 79 of his poems particularly suitable for children, to which he has added 16 new poems. 7 line drawings by William A. Smith

The Attic Orators from Antiphon to Isaeos

From Politics to Reason of State

Danger Is Everywhere: A Handbook for Avoiding Danger Eyes as Big as Plates is an ongoing collaborative photography and sculpture project by Norwegian-Finnish artist duo Karoline Hjorth and Riitta Ikonen (both born 1980). Initially a play on characters from Nordic folklore, the series has evolved into a search for the human connection to nature. Hjorth & Ikonen work together throughout the process with their complementary skills (Karoline is the photographer in the duo, while Riitta works mainly with the creation of the wearable sculptures). Since 2011 the duo has collaborated with retired farmers, fishermen, zoologists, plumbers, opera singers, housewives, artists and academics. Each character inhabits the landscape in a wearable sculpture made from natural materials. The book features portraits, field notes, essays and behind-the-scenes stories from many of the project's 60 shoots. With international press coverage in the *Huffington Post*, the *BBC*, *TIME LightBox*, *Life* and elsewhere, plus a highly successful Kickstarter campaign attracting a large American audience, the series has developed into a project with universal appeal.

Mathematics in Ancient Greece This book deals with ecological models of two kinds, which both aim to understand the general properties of ecosystems: mathematical models and laboratory models.

Wind Song

Catalogo dei libri in commercio The agile, lightweight, open-source Spring Framework continues to be the de facto leading enterprise Java application development framework for today's Java programmers and developers. It works with other leading open-source, agile and lightweight Java technologies like Hibernate, Groovy, MyBatis, and more. Spring now also works with Java EE and JPA 2 as well. Pro Spring 3 updates the bestselling Pro Spring with the latest that the Spring Framework has to offer: version 3.1. At 1000 pages, this is by far the most comprehensive Spring book available, thoroughly exploring the power of Spring. With Pro Spring 3, you'll learn Spring basics and core topics, and gain access to the authors' insights and real-world experiences with remoting, Hibernate, and EJB. Beyond the basics, you'll learn how to leverage the Spring Framework to build various tiers or parts of an enterprise Java application like transactions, the web and presentations tiers, deployment, and much more. A full sample application allows you to apply many of the technologies and techniques covered in this book and see how they work together. After reading this definitive book, you'll be armed with the power of Spring to build complex Spring applications, top to bottom.

Bibliografia italiana di storia della scienza Doing Pragmatics achieved success through its unparalleled capacity to render pragmatics truly accessible to students. Embracing the comprehensive and engaging style which characterised the previous editions, the third edition is fully revised and expanded. Grundy consolidates the strengths of the original version, reinforcing its unique combination of theory and practice with new theory, exercises and up-to-date, real data and examples. New chapters include pragmatic inference and language evolution, and intercultural pragmatics. Doing Pragmatics is designed for pragmatics courses both at an introductory and a more advanced level. It extends beyond theory to promote an applied understanding of empirical data and to provide students with the opportunity to 'do' pragmatics themselves, providing the ideal foundation for all those studying linguistics and ELT.

Models in Ecology From the very first chapter of this informative and inspiring book, a clear picture emerges of how even three- and four-year-olds' capacities for serious authorship can and should be supported. - Lillian G. Katz Coauthor of *Young Investigators: The Project Approach in the Early Years* By the time they reach preschool or kindergarten, young children are already writers. They don't have much experience, but they're filled with stories to tell and ideas to express - they want to show the world what they know and see. All they need is a nurturing teacher like you to recognize the writer at work within them. All you need to help them is *Already Ready*. Taking an exciting, new approach to working with our youngest students, *Already Ready* shows you how, by respecting children as writers, engaged in bookmaking, you can gently nudge them toward a lifetime of joyful writing. Katie Wood Ray and Matt Glover guide you through fundamental concepts of early writing. Providing numerous, helpful examples of early writing - complete with transcriptions - they demonstrate how to: make sense of children's writing and interpret how they represent sounds, ideas, and images see important developmental signs in writers that you can use to help them grow further recognize the thinking young children engage in and discover that it's the same thinking more experienced writers use to craft purposeful, thoughtful pieces. Then Ray and Glover show you how little ones can develop powerful understandings about: texts and their characteristics the writing process what it means to be a writer. You'll learn how to support your writers' quest to make meaning, as they grow their abilities and refine their thinking about writing through teaching strategies such as: reading aloud working side by side with writers sharing children's writing. Writing is just one part of a busy early childhood classroom, but even in little doses, a nurturing approach can work wonders and help children connect the natural writer inside them to a life of expressing themselves on paper. Find that approach, share it with your students, and you'll discover that you don't have to get students ready to write - they're *Already Ready*.

CLIO Of Some Trigonometric Relations -- Vector Algebra.

L'indicatore modenese giornale di lettere, industria e varieta con bollettino commerciale Unlocking the Key to Perfect Selections and Amazing Photoshop Effects for Totally Realistic Composites Compositing is one of the hottest trends in Photoshop and photography today for portrait photographers, designers of all walks of life, and even retouchers. Everywhere you look, from group photos, to school graduation or sports portraits, to magazines, movie posters, and DVD covers, chances are, you've seen compositing. In *Photoshop Compositing Secrets*, Matt Kloskowski takes you through the entire process behind creating convincing, well-executed, and captivating composites. You'll see how to create images that run the gamut from real-world portraits for corporate, graduation, or group photos to sports portraits, templates, and collages, and even the surreal, dramatic composites that clients clamor for. You'll learn: One of the most important secrets to compositing: how to master selections in Photoshop (yes, even wispy hair), What background color, and camera and lighting setups work best for compositing, How to move a subject from one background to another, and the Photoshop lighting and shadowing techniques to make it look real, And all the Photoshop tips, tricks, and special effects you need to pull off a convincing, professional composite. Introducing Semantics

Pharmaceutical Chemistry - Inorganic (Vol. I). With over 45.7 million uninsured in the United States and health reform a national priority, the need for population health management has never been more eminent. Sixty percent of American deaths are attributable to behavioral factors, social circumstances and environmental exposures. Employment of population health management techniques advocating use of preventative services and quality clinical care are imperative. Important Notice: The digital edition of this book is missing some of the images or content found in the physical edition.

Paths to Wealth Through Common Stocks Architecture.

Dictionary of Italian Slang A STAND ALONE story in the bestselling SIX PACK RANCH series by New York Times Bestselling Author Vivian Arend ----- Three hurting hearts. Too many secrets. One chance to conquer their fears. Over the past year, Travis Coleman lost the two people he allowed closest to his heart. Both gave him ultimatums—then left. Hell if he needs that kind of pain again. Time to move forward without the friends he thought might save him from his dangerous cravings. When Ashley Sims returns to Rocky Mountain House, her rambling lifestyle isn't all she's hoping to change. Travis snagged a piece of her, and while getting tangled in his issues again might be crazy, she hasn't given up on him. Nine months ago, Cassidy Jones walked away to stop his best friend from making a huge mistake. Temptation lingers, though, and when Travis shows up on his turf accompanied by a sensually uninhibited woman, the combination tosses fuel on the banked fire. Passion flares among the three of them, as hot as the summer days. But are they willing to push the limits, and fight for love? Warning: Dirty fighting, dirty talk, dirtier sex—secrets are coming out. Get ready for ménage a trois and cowboy-on-cowboy action, with ropes and crops and the kind of relentless love strong enough to set a man free. Keywords: Canadian Author, cowboy, western, contemporary, small town For readers who enjoy: Jennifer Ryan, Joan Johnston, Kate Pearce, Linda Lael Miller, Lindsay McKenna, Diana Palmer, Maisey Yates, Vicki Lewis Thompson, Lorelei James.

Catalogo collettivo della libreria italiana First written in 1999 and released in 2000, this updated and revised edition takes a unique, yet serious look at modern male/female relationships from a player's point of view.
