What Bird Guide Is Best For You? | Audubon The Pileated Woodpecker is one of the biggest, most striking forest birds on the continent. It's nearly the size of a crow, black with bold white stripes down the neck and a flaming-red crest. Look (and listen) for Pileated Woodpeckers whacking at dead trees and fallen logs in search of their main prey, carpenter ants, leaving unique rectangular holes in the wood. The nest holes these birds
