William Golding's unforgettable classic of boyhood adventure and the savagery of humanity comes to Penguin Classics in a stunning Graphic Deluxe Edition with a new foreword by Lois Lowry. As provocative today as when it was first published in 1954, *Lord of the Flies* continues to ignite passionate debate with its startling, brutal portrait of human nature. William Golding's compelling story about a group of very ordinary boys marooned on a coral island has been labeled a parable, an allegory, a myth, a morality tale, a parody, a political treatise, and even a vision of the apocalypse. But above all, it has earned its place as one of the indisputable classics of the twentieth century for readers of any age. This Penguin Classics Graphic Deluxe Edition features an array of special features to supplement the novel, including a foreword by Lois Lowry, an introduction by Stephen King, an essay by E. M. Forster, an essay on teaching and reading the novel and suggestions for further exploration by scholar Jennifer Buehler, and an extended note by E. L. Epstein, the publisher of the first American paperback edition of *Lord of the Flies*. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

From one of America's most popular short story writers and an Academy Award nominee: the O. Henry Award–winning tale that inspired the movie *The Hunt*. A subject of mysterious rumors and superstition, the deserted Caribbean island was shrouded in an air of peril. To Sanger Rainsford, who fell off a yacht and washed up on its shores, the abandoned isle was a welcome paradise. But unknown to the big-game hunter, a predator lurked in its lush jungles—one more dangerous than any he had ever encountered: a human. First published in 1924, this suspenseful tale “has inspired serial killers, films and stirred controversy in schools. A century on, the story continues to thrill” (*The Telegraph*). “[A] tense, relentless story of man-against-man adventure, in which the hunter Sanger Rainsford learns, at the hands of General Zaroff, what it means to be hunted.” —Criterion

The Knowing the Bible series is a new resource designed to help Bible readers better understand and apply God's Word. Each 12-week study leads participants through one book of the Bible and is made up of four basic components: (1) Reflection questions designed to help readers engage the text at a deeper level; (2) “Gospel Glimpses” highlighting the gospel of grace throughout the book; (3) “Whole-Bible Connections” showing how any given passage connects to the Bible's overarching story of redemption culminating in Christ; and (4) “Theological Soundings” identifying how historic orthodox doctrines are taught or reinforced throughout Scripture. With contributions from a wide array of influential pastors and church leaders, these gospel-centered studies will help Christians see and cherish the message of God's grace on each and every page of the Bible. Pastor Drew Hunter helps readers understand and apply the challenging words of the prophet Isaiah in this 12-week study. Isaiah's prophecy, which alternates between promises of judgment and restoration, reminds God's people of the magnitude of humanity's sin, the judgment that we all deserve, and how God displays his glory by saving sinners. Throughout the study, Hunter continually shows how Isaiah's promise of cosmic renewal ultimately anticipates the work of Jesus Christ, the servant-king whose death would result in new life for all who trust in him.

With an introduction on using the principles of *The Servant* in your life and career, this book redefines what it means to be a leader. In this absorbing tale, you watch the timeless principles of servant leadership unfold through the story of John Daily, a businessman whose outwardly successful life is spiraling out of control. He is failing miserably in each of his leadership roles as boss, husband, father, and coach. To get his life back on track, he reluctantly attends a weeklong leadership retreat at a remote Benedictine monastery. To John's surprise, the monk leading the seminar is a former business executive and Wall Street legend. Taking John under his wing, the monk guides him to a realization that is simple yet profound: The true foundation of leadership is not power, but authority, which is built upon relationships, love, service, and sacrifice. Along with John, you will learn that the principles in this book are neither new nor complex. They don't demand special talents; they are simply based on strengthening the bonds of respect, responsibility, and caring with the people around you. The Servant's message can be applied by anyone, anywhere—at home or at work. If you are tired of books that lecture instead of teach; if you are searching for ways to improve your leadership skills; if you want to understand the timeless virtues that lead to lasting and meaningful success, then this book is one you cannot afford to miss.

"Fascinating. Lays a foundation for understanding human history."—Bill Gates In this "artful, informative, and delightful" (William H. McNeill, *New York Review of Books*) book, Jared Diamond convincingly argues that geographical and environmental factors shaped the modern world. Societies that had had a head start in food production advanced beyond the hunter-gatherer stage, and then developed religion --as well as nasty germs and potent weapons of war --and adventured on sea and land to conquer and decimate preliterate cultures. A major advance in our understanding of human societies, *Guns, Germs, and Steel* chronicles the way that the modern world came to be and stunningly dismantles racially based theories of human history. Winner of the Pulitzer Prize, the Phi Beta Kappa Award in Science, the Rhone-Poulenc Prize, and the Commonwealth club of California's Gold Medal.
